Lectures and Discussions
Health Care of the Future

We are glad to announce the 6th edition of the symposium „Health Care of the Future“ in this year under the title „Livability of Health I Design+Health - Bridging the gap."

Design and Health are two seemingly distant worlds. Forward-looking health care must link them both. Health promotion starts in our everyday life, in the city, at the work place. The future hospital will have to find its place in a prevention oriented health system. What can we learn from health promoting design in order to make the hospital a livable place itself?

The aim of the symposium is to question and elaborate forward-thinking concepts in health care by discussing the following topics related to architecture & planning, medicine, media, economy, policy and society:

LIVABLE HOSPITAL I LIVABLE CITY
LIVABLE WORKPLACE I PATIENTS NEEDS

The event addresses architects & planners, operators of health care facilities, health professionals and politicians. By this means we establish a creative multidisciplinary platform for discussion about current developments in the healthcare environment.

On Thursday, March 10th, we will hold an evening event at PLATOON KUNSTHALLE, an experimental space made of 34 standard freight containers in the center of Berlin. Enjoying the creative atmosphere, participants are invited to exchange interests and thoughts attuned to the lectures and discussions on the following day.
09:00 a.m.
Welcome: Prof. Christine Nickl-Weller Technische Universität Berlin
Prof. Dr.-Ing. Christine Ahrend Vice-President Technische Universität Berlin
Opening: Annette Widmann-Mauz, MdB, Parliamentary State Secretary, Federal Ministry of Health, Berlin

MORNING

10:00 a.m.
LIVABLE HOSPITAL
Moderation: Sebastian Redecke
Bauwelt, Berlin (DE)

Matteo Thun, Matteo Thun & Partners, Milano (IT)
Dr. med. Christof Veit, IQTIG, Berlin, (DE)
Dr. med. Peter Magunia, Roland Berger, Stuttgart (DE)
Prof. Dr. Andréa Belliger, Inst. f. Communication and Leadership, Lucerne (CH)

Discussion

11:30 a.m.
Coffee break

12:00 p.m.
LIVABLE CITY
Moderation: Prof. Dr. Cor Wagenaar
TU Delft / Groningen University, Netherlands

Prof. Kees Christiaanse, KCAP, Zurich (CH)
Prof. Dr. Vanessa Carlow, COBE, TU Braunschweig, Copenhagen/Berlin (DK/D)
PD Dr. med. Mazda Adli, Charité Universitätsmedizin, Fliedner Klinik, Berlin (DE)
Prof. RalfPasel, Technische Universität Berlin (DE)

Discussion

01:30 p.m.
Lunch

subject to alterations

AFTERNOON

02:30 p.m.
LIVABLE WORKPLACE
Moderation: Thomas Willemeit
GRAFT Architekten, Berlin (DE)

Sevil Peach Gence, SevilPeach, London (UK)
Dr. Stefan Rief, Fraunhofer Institute for Industrial Engineering, Stuttgart (DE)
Prof. Hans Nickl, Nickl & Partner Architekten AG, Munich (DE)

Discussion

04:00 p.m.
Coffee break

04:30 p.m.
LIVABLE HOSPITAL - PATIENTS NEEDS
Moderation: Prof. Dr. med. Eckart Rüther
University of Göttingen (DE)

Prof. Dr. med. Charlotte Niemeyer, Universitätsklinikum Freiburg (DE)
Michael Schmidt, Herzog & de Meuron, Basel (CH)
Dr. med. Iris Hauth, President DGPPN, Alexianer St. Joseph Hospital, Berlin (DE)
Dr. med. Bernd Metzinger, DKG, Berlin (DE)

Discussion

06:00 p.m.
Conclusion: Prof. Christine Nickl-Weller
